Falkon MultifluKs Kombi ED7

Klimatisierung - Evaporator-heater

- For a top-of-the-range cabin: adjustable air diffusers, as in a car. The flaps allow air to be directed towards either the windshield, the driver, or the feet (or any other area, depending on the settings for the ducts and air diffusers. The plenum is adjustable at will, thanks to the connections to the motorized flaps (also available with cable control).

- The MultifluKs® system can be adapted to a wide range of Kalori HVAC systems.

Heating Power	10 kW
Cooling output	7,7 kW
Airflow	725 m³/h
Electrical consumption	360 W
Water Fitting	16 mm
Ventilation speed	3

Voltage	Reference
12 V	122.19.025
24 V	122.19.125
