

Telescoping earthing pole, 3-piece

Earthing poles for railway systems, in three-piece design. The upper section of this earthing pole is continuously adjustable. A slider enables the connection between the earthing pole and the contact wire earthing terminal to be locked. The earthing pole can thus be used to mark the work site.

Picture may vary.

Technical Data

Article no.	362 745 745
Application	three-part
Length range	(m) 2,0 - 5,0
	Telescopic, 3-piece
Material	Fibreglass reinforced polyester

Dimensions

Transporting length	(mm)	2000
Total length	L _G (mm)	5000
Insulating length	L _I (mm)	500
