

# Valmet Conductivity Measurement

3100

## Measurements for demanding applications

The Valmet Conductivity instruments measure high and low conductivity using the 4-electrode principle. Designed for conductivity control in industries such as pulp, power, pharmaceutical, food, brewery, sugar and chemical.

Four individually selectable set-up modes are available, two for very low conductivity and two for normal/high conductivity.

- No maintenance
- Long life
- 4-electrode measuring principle
- 13 preprogrammed temperature compensations
- Wide sensor-assortment for all applications
- Low installation costs
- Wide selection of process mounting accessories

The Valmet Conductivity instruments are designed for very high precision and for a long and maintenance-free life.

- Rugged • Accurate • Reliable

## Specifications

### Low conductivity set-up:

Range 0  $\mu\text{S}/\text{cm}$  to 2 S/cm (0  $\mu\text{S}/\text{m}$  to 200 S/m).

**Temperature compensation:** O<sup>o</sup>, ultrapure water (neutral, acid, alkaline, ammonia), STD salt.

### High conductivity set-up:

Range 20  $\mu\text{S}/\text{cm}$  to 2 S/cm (2 mS/m to 200 S/m)

**Temperature compensation:** O<sup>o</sup>, STD salt, weak lye, weak acids

**Output:** Two current outputs 4–20 mA for conductivity or temperature.

**Temperature measurement:** From -40 to +250 °C

**Display:** LCD

**Sensor connection:** Series 4000 sensors with 11-pole strip connector and MF20 cable adaptor

### Local or remote measuring range selection:

Two low and two high conductivity set-up modes

**Control voltage:** 12–30 V DC

HART<sup>®</sup> communication as a standard

## Enclosure

**Material:** Cast aluminium, PE coated

**Protection:** IP67

**Dimensions:** 144 x 144 x 107 mm

**Mounting:** Panel, wall or pipe

**Ambient temp.:** From -10 to +60 °C

**Storage temp.:** From -20 to +70 °C

**Weight:** 2.3 kg

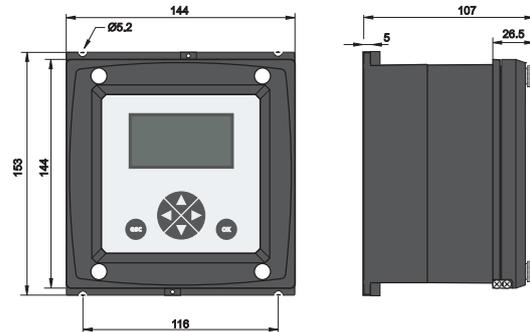

<b>Wall mounting</b>	Type 3107H	Type 3117H
<b>Panel mounting</b>	Type 3108H	Type 3118H
<b>Power supply</b>	Loop powered 18–30 V DC on mA1	Line powered 85–265 V AC, 6 VA
<b>Alarm</b>	No alarm	Two relays 250 V AC, 8 A
<b>Display</b>	Non-illuminated	Illuminated
